
RISK DISCLOSURE POLICY

Last updated: 03/07/2026 | Version 1.1

1. General Risk

Trading foreign exchange, CFDs, cryptocurrencies, and other leveraged financial instruments involves a significant risk of loss and is not suitable for all investors. You may lose some or all of your invested capital. You should not trade with money you cannot afford to lose.

2. No Guaranteed Profits

BXPRO does not guarantee profits, specific returns, or the performance of any account, strategy, or Expert Advisor. Past performance is not indicative of future results.

3. Leverage Risk

Leverage allows you to control a larger position with a smaller amount of capital. While leverage can magnify profits, it equally magnifies losses, and losses can occur rapidly.

4. Negative Balance Protection

BXPRO currently provides negative balance protection to retail clients. This means your losses on an account are limited to the funds held in that account, and BXPRO will absorb any negative balance that may otherwise arise from extreme market conditions, gapping, or execution events. This policy may be reviewed, limited, or withdrawn by BXPRO at its discretion, including in cases of abusive trading, and clients will be notified of any material change.

5. Cryptocurrency Risk

Cryptocurrency assets are highly volatile and may be affected by regulatory changes, technological vulnerabilities, market manipulation, and extreme price swings not typically seen in traditional markets. Cryptocurrency trading carries risks in addition to, and generally greater than, standard FX/CFD trading.

6. Market Risk

Prices can move rapidly against your position due to news events, economic data, geopolitical developments, or low liquidity conditions, and may result in losses greater than anticipated.

7. Technology & Execution Risk

Trading relies on electronic platforms, internet connectivity, and third-party infrastructure. System failures, disconnections, latency, slippage, or high volatility may affect order execution, pricing, or your ability to open, modify, or close positions in a timely manner. BXPRO does not guarantee execution at any specific price.

8. Algorithmic Trading, EAs & Third-Party Tools

If you use an Expert Advisor (EA), trading bot, signal service, or other automated or third-party tool, you do so entirely at your own risk. BXPRO is not responsible for losses arising from the performance, malfunction, or misuse of any such tool, and past backtest or simulated performance does not guarantee live trading results.

9. Counterparty & Liquidity Provider Risk

Your trades are executed through liquidity providers and other counterparties. BXPRO is not responsible for losses arising from the failure, insolvency, or default of any third-party liquidity provider, bank, or payment processor.

10. No Investment Advice

BXPRO operates on an execution-only basis and does not provide investment, financial, or trading advice. Any market commentary, educational material, or third-party signal/EA made available is for informational purposes only and does not constitute a recommendation.

11. Regulatory Disclosure

BXPRO Limited is incorporated in Saint Lucia. Saint Lucia's legal and regulatory framework may differ from that of your home jurisdiction, including in relation to investor compensation schemes and complaint escalation to external ombudsmen. You should independently assess whether this meets your regulatory expectations before trading.

12. No Deposit Insurance

Funds held with BXPRO are not covered by any government-backed deposit insurance or investor compensation scheme (such as the FSCS or equivalent), unless expressly stated otherwise in writing.

13. Force Majeure

BXPRO is not liable for any delay, failure to perform, or loss arising from events beyond its reasonable control, including but not limited to acts of God, war, government action, exchange or market disruption, or failure of third-party systems.

14. Suitability

You are solely responsible for assessing whether trading leveraged products is appropriate for your financial situation, investment objectives, and risk tolerance, and for seeking independent financial advice if needed.

15. Acknowledgment

By opening an account with BXPRO, you confirm that you have read, understood, and accepted this Risk Disclosure Policy, and that you are trading at your own risk.
